EXPERIENCE

Software Developer   Komplementskolan AB   Summer 2015
                                  Stockholm, Sweden

I Worked as a software development intern at Komplementskolan AB in Stockholm. Me and another intern worked on some frontend functionality for an admin interface. Learned alot about SOLID-principles and common concepts of software development through weekly code reviews.

Teaching Assistant   Linkopings University   Present
                                  Norrkoping, Sweden

I work as a teaching assistant in a few courses at the university. The courses i work with are mostly in C++ but i have also done some that involves web programming as well as user interfaces in Android.

Software Developer   Ericsson   Summer 2014
                                  Linkoping, Sweden

Summer internship at Ericsson as a software developer. I worked on a system/concept helping a management team receive a better overview of the current process flows for certain products. The job had a heavy emphasis on working agile and i learned a lot about Ericssons way of working with Lean.

Programming Mentor   LiTHehack   Aug 2014 - Present
                                  Norrkoping Sweden

I Help other students in programming related questions once or twice every week at Linkopings University. I also work as a Lab assistant in computer science courses.

Salesman   Gorm Larsen Nordic   Sep 2011 - March 2012
                                  Karlstad, Sweden

I was a salesman mainly promoting HP products for Gorm Larsen Nordic. The job included customer service and having a deep knowledge in HP products and understanding what the customers really needed.

COMPUTER SKILLS

Extensive knowledge of Computer Graphics
Proficient programming skills in C++, Java, OpenGL, Matlab, Rails, EmberJS
